What we offer ?

NBA TOPSHOT REVIEW SYSTEM

Users of our DAPP can rank and share their favorite moments with their community. The user will be able to make an informed decision by knowing the end user reviews before trading.

Our Approach

Social login

Any web2 or web3 user can easily log in to the platform without any hassle using their gmail account.

Rate favorite moments

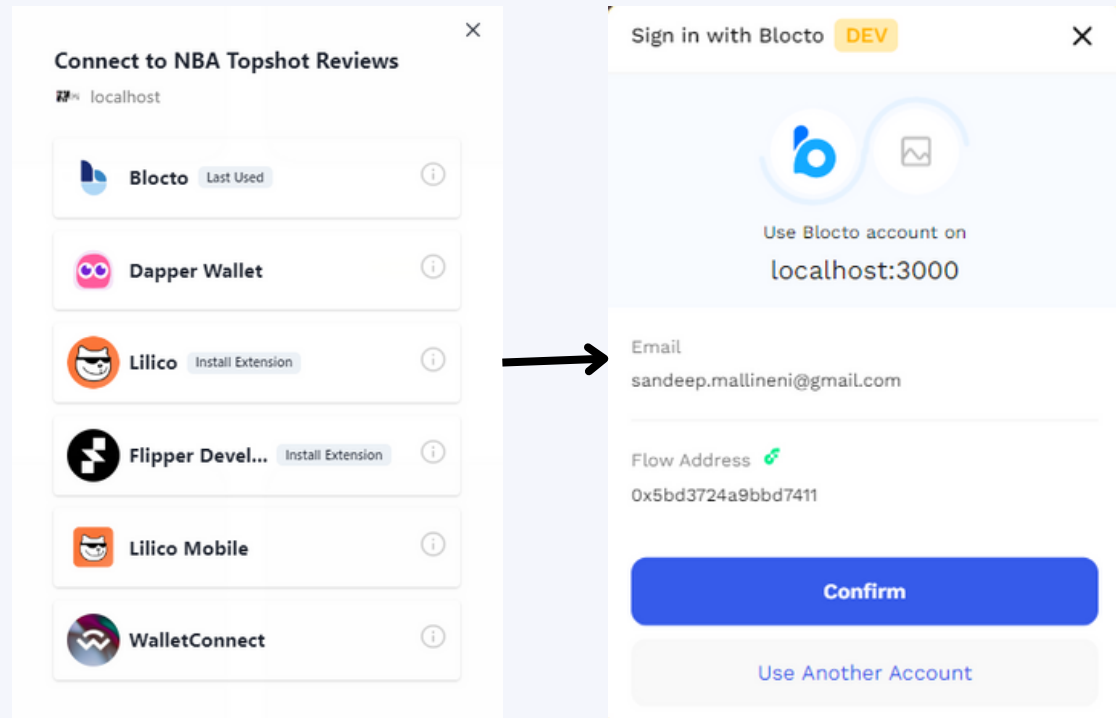

Users can rate their favorite moments which will be stored onchain and shared with everyone.

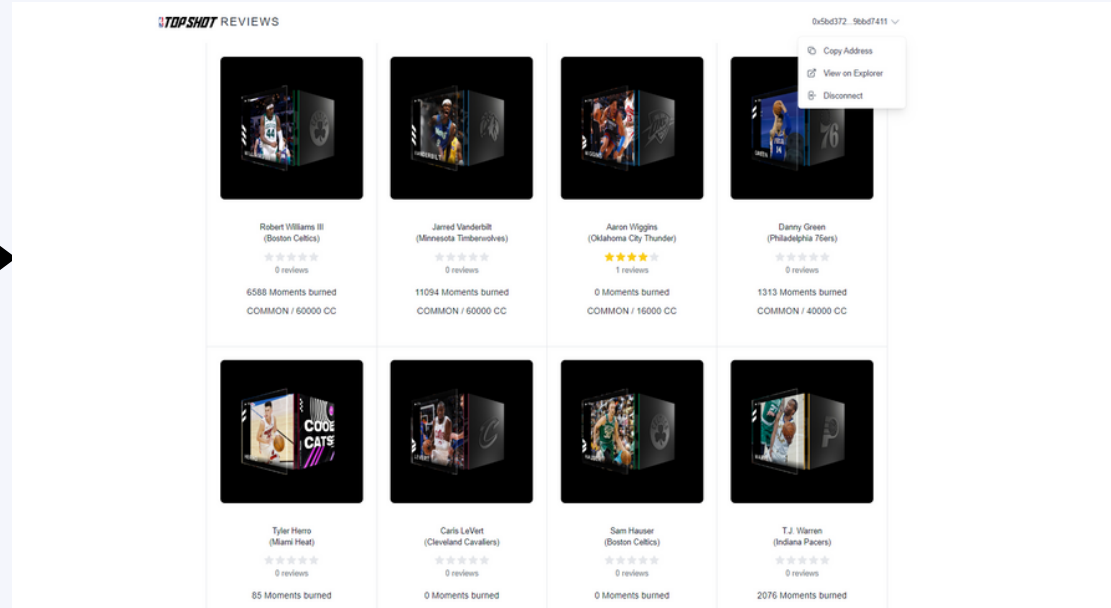

NBA Top Shot Moments

There are all sorts of moments from the NBA Market place, along with ratings from the community, available for users to review and trade accordingly.

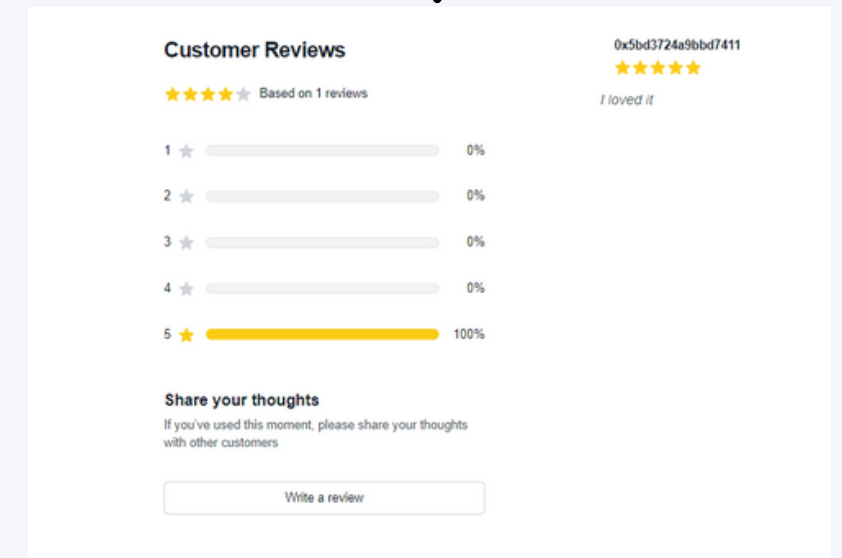

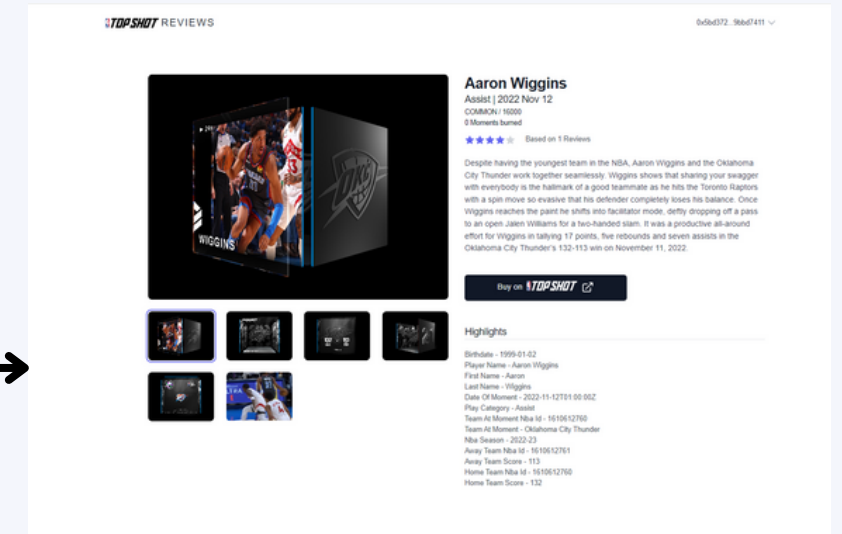

Sign in with email (Blocto)

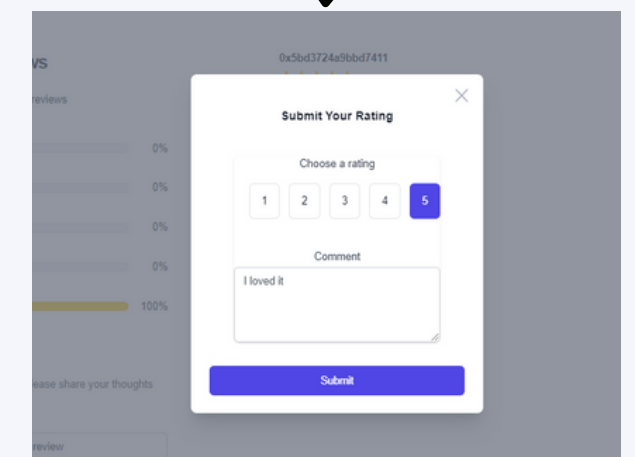

Then they will be redirected to market place

View Moment

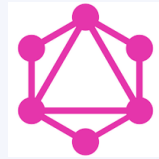

User can submit a rating

Fetch data using graphql queries from nba topshot

User can see reviews from community
